# Natalya Zagoryanskyaya

## QA Engineer

I am a Quality Assurance Engineer at an international company, dedicated to ensuring the utmost product quality and customer satisfaction. My primary focus lies in testing web and mobile applications, and I bring extensive experience in testing both front-end and back-end technologies, including WP, Moodle, Laravel, and Shopify. Proficient in integration testing and skilled in conducting load tests, I excel in creating clear and structured test documentation for complex projects, starting from the ground up. A rapid learner of emerging technologies, I am keenly interested in advancing in the test automation field.
